Another traitor to scotland

A LEGAL safeguard protecting the Scottish Parliament from being dissolved has been rejected by the UK Government.

Scottish Secretary Alistair Carmichael rejected the proposal which would prevent any future UK Government from dissolving Holyrood.

Legal experts have claimed there is no law that can stop a future government from disbanding the Scottish Parliament and repealing the Scotland Act of 1998.

Just got message back from SNP in regards to my appeal to all YES voters to join SNP and destroy labour in Scotland. They said their server can't cope as 4 people per minute are joining them. It's fantastic news we will do it Scotland will be free. The no vote traitors have not won the day.

Should Scotland declare independence, UDI, without a second referendum. Fuck the no vote traitors we don't need, want or vote for 5 more years of the tories.

"Let me get this straight, you're telling me you voted no, because you wanted to show you are a true Scot. That by keeping the tories in control, you were being a patriot. Let's not beat around the bush here, you're a fucking retard.!"

**Andy Milne**

If there's one thing i hate more than the tories, it's no vote Saturday afternoon Scots who continue to bleat on about loving Scotland. How can you love something then stab it in the back, you fucking treasonous scum ????
